ASTILBE**'Vision in White Delight'**

A strong improvement over 'Vision in White'. Bears pure white Vision-style flowers on thick strong stems.

Shade · 18" · Zone 3-8 · PPAF

BRUNNERA**'Frost King'**

King-sized silver frosted leaves display prominent dark green venation. Mature plants are big and robust, generating leaf spans of five inches plus. One of the largest brunneras you will find. Bright blue flowers are a bonus in spring.

Shade · 14-16" · Zone 4-9 · PPAF

ECHINACEA**'Fringe Festival'**

Totally, totally different. Petals are split, not doubled. Interesting orange and apricot tones appear in the pink petals that fill the entire ball-shaped flower. Long, strap-shaped pine green foliage goes all the way to the ground.

Full Sun · 16" · Zone 4-9 · PPAF

ECHINACEA**'Sunseekers Pink Grapefruit'**

Highly double salmon pink flowers, right up to the cone. Brings to mind a frilly Elizabethan collar.

Full Sun · 18-24" · Zone 4-9 · PPAF

HELLEBORUS**'Winter Sparkle Duo Pink'**

Snow white flowers have elegant pink-stained picotee edging. Displays color from late February to early April.

Full-Part Shade · 12-18" · Zone 4-9 · PPAF

**HEUCHERA****'Carnival Lime Zest'**

Chartreuse foliage has a green veining with a hint of ruffles on the edges. Has the longer lifespan of a Carnival.

Shade · 10-12" · Zone 4-9 · PPAF

LIATRIS**'Butterfly Magnet'**

Spectacular purple blooms on a columnar habit that's coming back into vogue. Cool and dramatic native plant.

Sun-Shade · 4' · Zone 3-9 · PPAF

POLEMONIUM**'Violet Heart'**

Big, vigorous, and upright. At the heart of each pretty white flower lies a purple eye. When the plant blooms in late spring to early summer, long stalks go straight up, with flowers held on slender stems above a clump of purple-green foliage. Blooms are lightly fragrant.

Full Sun · 12-16" · Zone 3-9 · PPAF

RUDBECKIA**'Suntacular'**

Radiant bicolor gold and orange flowers can be seen from a distance. Breeding patterns into fulgida is an exciting achievement. Sturdy and rugged, it grows in the 'Goldsturm' style and keeps the flower count high.

Full Sun · 30-34" · Zone 5-8 · PPAF

SEDUM 'Sunsparkler Dazzling Dynamite'

A dense rosette of dark plum leaves with variegated hot pink margins has the flash of an annual. In a pot on a table it's a colorful showpiece.

Full Sun · 8" · Zone 3-9 · PPAF

Up and coming pre-releases to the Creek Hill perennial availability schedule. These new cultivars become available throughout the 2026 season. Consult the weekly availability list or the Limited Edition category in the Creek Hill shopping cart for specific dates the trays become available for sale.
